# 122000w industrial frequency inverter

What is a digital frequency inverter?

Flexible and digital frequency inverter for direct mounting on the motor or as a stand-alone converter with a power range of 0.37 to 4.0 kW Decentralized and versatile inverters with many functions, everything from simple speed control to operation of simple lift shafts and safety functions.

Why do you need a frequency inverter?

By adapting engine speed as needed, you can reduce speed when full power is not required, resulting in significant energy savings and reduced operating costs. By avoiding sudden starts and stops, there is a reduced load on equipment, which means that the frequency inverter contributes to extending the life of both motors and mechanical components

What is a frequency inverter with u/f control?

Frequency inverter with U/f control with all the necessary functions needed for speed control of asynchronous motors. This frequency converter with protection class IP66 is both easy to handle and has user-friendly functions for speed control of asynchronous motors.

What is a frequency converter?

Our frequency converters are adapted for industrial applications and control of drive lines in machines and systems and are designed for demanding working conditions, whether it concerns drives of pumps, fans, processing machines, conveyor belts, assembly lines or cranes and handling systems.

Find your industrial frequency inverter easily amongst the 66 products from the leading brands (Beijer, Bonfiglioli, NORD, ...) on DirectIndustry, the ...

In the dynamic world of industrial automation and power management, frequency inverters play a pivotal role. They are the unsung heroes that ensure the seamless operation ...

Amazon : JJCEQBPE Inverter 12KW 8KW Inverter 12V 24V 48V to AC 220V 8000W 12000W Frequency Converter (24V\_120V (60HZ)) : Industrial & Scientific ClimeCo certifies products ...

industrial automation products and solutions with superior quality, reliability and precision that find application in a broad range of industries, including electronics, components, photoelectric ...
