Do you need a 12V battery inverter?

Nowadays owners of residential solar systems rarely use 12V batteries and instead pick 24V or 48V. However, 12V batteries are very popular among boat and RV owners. For this reason a 12V battery inverter is perfectly suited for a ship or recreational vehicle.

What are the two types of 12V inverters?

There are two main types of 12V inverters: sine and pure sine. Sine inverters produce a blocky signal, while pure sine inverters generate a wavy signal. Pure sine inverters are considered the best 12V inverter models because they produce a cleaner signal, which is better for expensive laptop and camera batteries.
