
40-foot folding container used for train station

What is a 40ft platform container?

The 40ft Platform Container is a specialised container for the storage and transportation of odd sized goods which may not fit in any other container. The 40ft is the largest Platform Container available. Available in: 20ft and 40ft. We also offer a folding Flat Rack Container in 20ft and 40ft versions All specifications are indicative.

What is a 40 ft container used for?

40ft units can be used for commercial, residential, and shipping industry applications. There are a few types of 40-foot shipping containers, but the most common one is the standard dry 40' shipping container. These storage containers are easy to load and unload and can hold products that are dense or have a lot of weight.

What is a 40ft flat rack container?

40ft Flat Rack Containers are a type of shipping container that is perfect for large, bulky items that don't fit in a traditional shipping container. They are also great for items that need to be shipped on a pallet, such as heavy machinery or automotive parts.

What is a 40ft storage container?

40ft storage containers are the perfect way to transport large items or large quantities of items. They are made of durable corrugated steel and have a high-security lock box to protect your belongings. They also have two-way forklift pockets, so you can easily move them around.
