## Area of ??Boston Energy Storage Project

How many energy storage facilities are there in Massachusetts?

The Massachusetts Energy Siting Facilities Board has approved two energy storage facilities with a combined capacity of 400 MW/800 MWh. This decision overturns previous rulings that hindered the development of these facilities. Once operational, they will fulfill 80% of the state's 1 GWh energy storage deployment target for 2025.

What is Flatiron Energy's 300 MW battery storage project?

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts.

Which building will house the Bess project?

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor BESS located in Boston, Massachusetts under development by developer and IPP Flatiron Energy.

How much storage capacity does Massachusetts have?

It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline. Plus Power's 150MW/300MWh Cranberry Point BESS located in the Town of Carver is expected to make up a large proportion of the 1GWh total, with commercial operations scheduled for summer this year.

Electric Ave Energy Center Electric Ave Energy Center is a 185MW Battery Energy Storage System that CME is jointly developing with its Partners Hecate Energy and Flatiron ...

The 200-megawatt battery energy storage facility initiated a City of Boston Article 80 review. VHB is leading the review process for the project.
