# Commercial solar panels wholesale factory direct sales

Where to buy wholesale solar panels?

If you are looking for a place to buy wholesale solar panels, you've found it. A1 SolarStore offers PV modules from all over the world for competitive prices and with fast delivery. Let us tell you a little about the panels that we offer, how we deliver them and what kind of solar panel you might need.

Why should you buy solar panels wholesale?

Solar panels can be very different in terms of cost, and several factors impact the final price, such as wattage, brand, type of panel, warranties, etc. Whatever brand you pick, its solar panel wholesale price is lower than retail, so you end up saving a lot.

Which is the largest solar brand in the world?

The Chinese brand aims to be the largest solar brand in the world. JA Solar offers cheap, efficient, high output PV modules for all kinds of applications, but especially solar farms. For instance, JA Solar wholesale 500 Watt solar panels are a great choice for systems of a large scope. They feature simple design, low price and high output.

Who makes Canadian solar panels?

The Canadian brand was founded by Chinese scientist Dr. Shawn Qu. The panels that the company offers for sale aren't too expensive, but they are quite powerful and perform well in low-light conditions, such as cloudy days, winter and fall. This Chinese company competes in the Top-5 world's largest solar brands.
