# New energy storage integrated equipment

Why are energy storage technologies important?

They are also strategically important for international competition. KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ('CEC') released the New Energy Storage Technologies Empower Energy Transition report at the 2023 China International Energy Storage Conference.

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

What is Electric Transportation & Energy Storage Association?

The Electric Transportation & Energy Storage Association is a branch under China Electricity Council (hereinafter referred to as "CEC"). It was established under the concerted decision of the CEC Board and implements the Constitution of CEC.

From iron-air batteries to molten salt storage, a new wave of energy storage innovation is unlocking long-duration, low-cost resilience for tomorrow's grid. As the global ...

Why Integrated Energy Storage Matters Now (and Why You Should Care) the energy game is changing faster than a Tesla Model S Plaid hitting 0-60 mph. At the heart of this transformation ...

Recently, several projects--including Shanghai Electric Group's 5GWh all-vanadium redox flow battery project, the Washi Power sodium-ion battery base project, and ...

XIAMEN, China, Dec. 13, 2025 /PRNewswire/ -- As Long-duration Energy Storage (LDES) becomes central to overcoming renewable intermittency and enabling all-weather ...

In this edition of the Energy-Storage.news US news roundup, EticaAG partners with Shell on battery immersion tech, Pacific Northwest National Laboratory begins utility-
