## Nuku alofa 2025 Energy Storage Site

Can Australia help secure Tonga's outer island energy needs?

Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group.

How to achieve 70% renewables in Vava'u & Ha'apai?

To achieve 70% renewables in Vava'u, at least an additional 10MWh of storage would be needed and 3.9 MW of solar, at a cost around USD 10.5 million. In Ha'apai, there is a need to replace switchboards installed through HOIEP, at an estimated cost of TOP 40,000 each. This should have formed part of the OIREP design but was missed.

Does the Australian AHC in Nuku'alofa focus on gender and disability?

It is clear that the Australian AHC in Nuku'alofa monitored the project in general, and placed significant focus on performance related to gender and disability given observations that these were areas where the project had the opportunity to strengthen its performance.
