# Payment Method for 25kW Solar Container Solar Unit in New Delhi

How much does a solar panel cost in Delhi?

Without subsidies, the solar panel price in Delhi varies depending on the capacity, quality, and brand of the panels. Typically, the price of a solar panel system ranges between INR 75,000 to INR 85,000 per kilowatt (kW), excluding installation charges.

Can Delhi residents install solar panels at a reduced cost?

With generous subsidies and incentives, Delhi residents can install solar panels at a reduced cost while benefiting from long-term energy savings. This guide provides a detailed breakdown of the latest solar system prices, subsidy structures, and installation processes for 2025.

How a solar panel subsidy works in Delhi?

When factoring in the subsidy, the solar panel price in Delhi with subsidy becomes much more affordable. In addition to these subsidies, homeowners can take advantage of net metering, a system where surplus energy produced by the solar panels can be sent back to the grid, further reducing energy bills.

How much does a 25kW solar panel cost in India?

The 25kW solar panel price in India varies depending on the brand and the equipment used. On average, it can cost between Rs. 29 to 50 per watt depending on the efficiency rating of your 25kW solar panels. What type of solar system is best for a commercial establishment?
