What is a 20000 mAh power bank?

A 20000mAh power bank is a portable external battery pack designed to charge various electronic devices, such as smartphones, tablets, cameras, and more. Holding 20000mAh of energy, it can provide multiple charges for most smartphones and smaller devices, making it a convenient and essential power solution on the go.

How long does a 20000 mAh power bank last?

How long a 20,000mAh power bank lasts depends on the battery capacity of the device being charged and the frequency of charging. In general, a 20000mAh power bank can provide 4-6 charges for an average smartphone. This would imply a duration of 4-6 days if you charge your phone daily using the power bank.
