# **Prices for foldable containers used in European ports connected to the grid**

Do foldable containers reduce container fleet management costs?

The effect of foldable containers on the costs of container fleet management in liner shipping networks. *Maritime Economics & Logistics*. 2012. Vol. 14. No. 4. P. 455-479. DOI: 10.1057/mel.2012.16. Shintani, K. & Konings, R. & Imai, A. Combinable containers: A container innovation to save container fleet and empty container repositioning costs.

Which country has the largest container transshipment market in Europe?

In 2023, the Netherlands accounted for a Europe container transshipment market share of over 22% in Europe. The Netherlands holds a major market share in the market, owing to its position at the global intersection to Europe.

Do foldable containers generate revenue?

However, this does not generate revenue and incurs container management costs (CMCs). Some container carriers may use foldable containers (FLDs), such as four-in-one designs, instead of standard containers (STDs), in order to minimize the costs associated with relocating empty containers.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

The Europe container transshipment market size crossed USD 2.7 billion in 2023 and is expected to observe around 2.8% CAGR from 2024 to 2032, ...

This could save transport costs, but also transhipment and storage costs. In this paper, we analyse the opportunities for commercial application of foldable containers. For this

...

A five-in-one foldable container design could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS).

The costs and benefits of using foldable containers in these logistic concepts are calculated and compared with the situation in which standard containers are used. It is shown ...

The Foldable Container Market Size was estimated at USD 21.29 billion in 2024. The industry is expected to grow from USD 23.35 billion in 2025 to USD 53.50 billion by

---

2034

Foldable Container Market Outlook for 2024 to 2034 The foldable container market size is estimated at USD 1.5 billion in 2024 and is projected to reach USD 2.0 billion by 2034, ...

This study seeks to explore the effectiveness of employing foldable containers (FLDs) in liner shipping to reduce relocation and the empty containers and bunker costs (BCs)

...

The Europe container transshipment market size crossed USD 2.7 billion in 2023 and is expected to observe around 2.8% CAGR from 2024 to 2032, attributed to significant investments in port ...

This article presents statistics on intermodal freight transport in the European Union (EU) and the EFTA countries. The statistics contain a set of indicators developed by ...

Are shipping containers outdated? The intermodal shipping container is 70 years old. Over the years it has been refined but ownership costs have increased. For example, this ...
