What does Vietnam's Solar Policy update mean for energy storage?

Vietnam's solar policy update highlights growing role of energy storage. (Photo: iStock)
Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, incorporating energy storage systems.

What are the conditions for solar storage in Vietnam?

Conditions for systems with storage include a minimum storage capacity of 10% of the solar plant's installed capacity, a charge/discharge time of 2 hours, and at least 5% of total generation used for charging the storage system. Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low.

How much does a solar project cost in Vietnam?

Overall, projects with storage receive higher FIT rates. Previously, Vietnam's FiTs were relatively low. In January 2023, the top rate was NT\$1.49/kWh for ground-mounted solar and NT\$1.89/kWh for floating solar, with no regional or storage-based distinctions.

Will Vietnam's solar panel manufacturing benefit in the long term?

Vietnam Briefing looks at the opportunities and how Vietnam's solar panel manufacturing is likely to benefit in the long term. On June 6, 2022, the US announced a tariff exemption for solar panels from Vietnam along with Cambodia, Malaysia, and Thailand for up to 24 months to meet the skyrocketing solar energy demand in the US.

Grid constraints: Solar curtailment rates exceed 15% in some regions, and Vietnam faces a 3GW power gap during peak summer demand. Countermeasures: Mandatory storage ...

Vietnam's increasing adoption of renewable energy sources, particularly solar and wind, has created challenges for grid stability and energy reliability. Due to the intermittent nature of ...

Integrating solar hybrid storage into Vietnam's existing infrastructure represents a significant stride towards a sustainable energy future. By overcoming challenges and capitalizing on ...

Explore Vietnam's growing demand for solar battery storage across residential and commercial sectors. From home backup systems to large-scale BESS battery energy storage, ...

Ho Chi Minh City, Vietnam - 28th February 2025 - SolaX, a global leader in solar energy and storage solutions, successfully concluded the Vietnam Solar Summit 2025, ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

These factors create favorable conditions for the initiation and scaling of Vietnam's domestic electrochemical energy storage market. Against this background, this article ...

With a spirit of collaboration and long-term commitment, Huawei Digital Power proudly participated in Solar & Storage Live Vietnam 2025 (July 9-10, Ho Chi Minh City), ...

The Energy Storage System (ESS) by LS ELECTRIC Vietnam is a smart energy storage and management solution designed to help businesses optimize energy consumption, ...

POWEROAD proudly showcased its latest innovations at Solar & Storage Live Vietnam 2025, held at SKY EXPO Vietnam on July 9-10. As Vietnam's premier clean energy ...
